More landfill/junk materials have been removed from Cow's pastures.

Goshala San Martin is unfortunately infested with continuous dumping of junk, debris, and industrial waste in cow's pastures. The focus of this month was to rebuild Cow's healthy living by removing all foreign debris from Cow's pastures.

All debris is constantly being removed so Cows can live and breathe in a healthy and clean place♥

Special appeal

During your Visit- Please feed them 'Hay' only!

Goshala's Veterinarian has warned against the current open-door policy of food feeding to sanctuary residents.

Please do not feed them any Carrots/bananas/veggies/fruits/rice/flour/sugar to the herd as the cows' health has been greatly impacted. As per their new instructions, Hay will be the 'only' food allowed for cows. Hay bins have been stocked around in the sanctuary for visitors to feed Cows.
