This month's highlights in San Martin Goshala

The 4-legged residents of San Martin goshala live in an environment full of flies and bugs which increases the risks of skin infections. Cow Bhawani lives with permanent infection so this month's special cleaning was done by applying disinfectant oils around their faces and body parts to provide additional layer of protection from flies. See her reaction post cleaning- She is smiles and love

We love you too

Cow's Pasture maintenance

- Debris/Poisonous plants are constantly removed from the Cow's living areas.
- Clean and clear land is irrigated to allow the fresh and natural grass to grow.

Heartiest Thanks for your donations, Goshala in San Martin received much required cleaning tools, buckets, power wash machine, water hoses for goshala cleaning, and supplies for cow's hygiene & medical supplies, accessories like halters & lead ropes needed during medical visits Thank you so much!

Future Hopes~

We hope to continue efforts in the San Martin goshala to better the lives of its residents. Besides food, Medical /Veterinary care is an important need of any animal sanctuary. We hope to extend our support to another animal sanctuary (for farm animals) regarding their pressing medical treatments.
