February, 2023

This month in San Martin Goshala- Infections back on rising again

For quite some time, our ground team has been addressing pressing concerns with the San Martin temple management including but not limited to:

- 1) Adequate size clean & dry Barn for all cows during freezing & extreme hot temperatures,
- 2) Disease and infection-free living environment for Cows,
- 3) Food- Ensure Cows receive grass & supplements daily without fail,
- 4) Timely communication in seeking Emergency & Veterinary care &
- 5) Daily (Weekly)(gobar)feces removal from the cow's living environment.

Calf Rukmini's passing away is a humble reminder depicting the current challenges in the San Martin goshala. We are hopeful that temple management will prioritize their attention towards them and permit our efforts to implement these desperately needed measures.

Your donations at work!
Heartiest Thanks for your donations to Goshala BJ Animal Care, San martin goshala has an uninterrupted healthy Alpha grass supply.

~Future Hopes~

San Martin temple's cooperation is crucial for the well-being of cows and to ensure continued support from our end. We are looking forward to some concrete measures being taken in upcoming months for the well being of cows in goshala.

Cow Bhawani's eyes are infected again.

Cow Bhawani

2/11/2023

For past 2+ years, Goshala BJ volunteers had been helping keep cow Bhawani's eye infection under control. We have been informed by the temple management to hold back all and any of our cleaning efforts and that they will take care of it.

Goshala BJ Animal care

An animal (farm) welfare 501 c 3 non profit

"Providing support for life time care of farm animals."

Rescue & Rehabilitation of 'spent cows'

Goshala BJ Animal care's mission is to provide life-long care for cows;

a) by supporting Rescue efforts to prevent cruelty towards 'spent' cows and Rehabilitating them in animal sanctuaries; because every life deserves a chance to heal itself and others in the process.

b) by supporting struggling cow shelters aka goshalas where they are not exploited for dairy or meat.

With the onset of 2023, We are aiming to find appropriate sanctuaries/goshalas/ cow shelters as we begin our rescue efforts. An animal once rescued can't be bred for financial gains. We strive for animal welfare and will plan to provide for basic needs of rescued cows including food, shelter and Vet care .

We are also seeking volunteers to

a) help search goshalas/animal sanctuaries to rehome the rescued cows &

b) to support our grant research team remotely.

All research work is done remotely!
